

Statin Use in Persons with Diabetes (SUPD) & Statin Therapy for Persons with Cardiovascular Disease (SPC) Exclusions

Not all quality measures intended for the general adult population may be appropriate for people with certain conditions or advanced illness and frailty. These exclusions help ensure that quality measures and all associated quality improvement efforts are focused on the population most likely to benefit from the specified service. When applicable, the following list of ICD-10-CM diagnosis will remove a patient from the measure when documented and coded yearly.

Statin Use in Persons with Diabetes (SUPD) & Statin Therapy for Persons with Cardiovascular Disease (SPC) Exclusions

Not all quality measures intended for the general adult population may be appropriate for people with certain conditions or advanced illness and frailty. These exclusions help ensure that quality measures and all associated quality improvement efforts are focused on the population most likely to benefit from the specified service. When applicable, the following list of ICD-10-CM diagnosis will remove a patient from the measure when documented and coded yearly.

ICD-10-CM Official Guidelines for Coding and Reporting: <https://www.cms.gov/files/document/fy-2024-icd-10-cm-coding-guidelines.pdf>
